

**SWIFT
Sunscreen Policy and Consent Form**

Child's Name: _____

It is the policy of Swift Child Care (SCC) that families are responsible for applying their child's sunscreen each day prior to the child arriving at SCC. With parental consent as expressed through this document, staff will reapply sunscreen 2 hours after sun exposure (or more frequently if needed during periods of swimming). School-age children will be monitored during sunscreen application and assisted when necessary.

The best prevention for infants under 6 months is to dress your child in lightweight, long sleeves and pants and provide a wide brim hat with a chin strap. Even for infants under 6 months, the American Academy of Pediatrics has approved the use of sunscreen on small areas of the body: face, neck, ears, etc.

Please review the provided brochure: "Play it Safe in the Sun" for more guidance

SWIFT (SCC) Staff has my consent to apply sunscreen to my child. I understand that it is my responsibility to provide personal sunscreen for my child and to label the package. By signing this consent, I agree not to hold Swift or any staff or entity thereof responsible for liability arising out of applying this sunscreen to my child.
